

## SBFE BOD Meeting Agenda and Community Update

Hello Everyone,

Attached is the Board Meeting Agenda for Monday June 26.

### **Bridle Paths**

Reminder that parking on the Bridle Paths is prohibited. As a property owner you have ingress and egress to the rear of your property and for unloading. Landscapers, construction companies, visitors, etc. are not to park on the Bridle Paths to perform work on your properties or other. Bridle Path entrances have signage noting the restrictions on the Bridle Paths including weight limits. The Bridle paths must stay clear for SBFE Irrigation company to access properties to perform irrigation service, emergency vehicles to get to properties and for utility companies to perform service, i.e., Cox, Century Link.

Property owners are responsible to maintain the back areas and any side easements to their properties and keep them free and clear of tall grass, weeds, and other foliage, over hanging tree limbs and trash.

The 4<sup>th</sup> of July is fast approaching, please be mindful of the community you live in and be sensible in using fireworks. We have beautiful homes, an abundance of trees and a variety of animals that can have a hard time when fireworks are going off.

Have a great week.
