## **Community Reminders**

No parking on the Bridle paths, please remind your landscapers and contractors not to park on the Bridle paths.

If you need to unload horses or other and can't access the back of your property and need to temporarily park on the Bridle path, please move your vehicle to the side of the Bridle path so people and horses can get around your vehicle or horse trailer.

Dirt Bikes and any other form of ATV or motorized bike are prohibited on the Bridle paths. We have received communication about several young people cruising the Bridle paths with Sand Rails/ Razers etc., these are also prohibited.

Slow Down when driving in the community. We have many neighbors walking in the morning and evenings and children active on bicycles and skateboards.

Have a great weekend.
