Member Contact Information

In an effort to provide you with the best possible service, communication is vital. We place an emphasis on communication for our community association clients. Information quickly becomes outdated, so while your current management company may maintain excellent records, the amount of information that we request is seldom provided at transition. Also, in case owners are only in residence on a part time basis or have a tenant, we find the inclusion of a LOCAL emergency contact, who has a key to your residence, is vitally important.

Therefore, we ask that you take a few minutes to provide us with the best possible means in which to contact you, should that become necessary. Also, as was noted in our letter, we hope to provide you with communications via email, which is a faster and more reliable means to communicate, and it saves your community the costs of printing and postage.
